President's Words

On behalf of the current PERMIAS officers, congratulations to all De Anza 2021 transfers!! We could not be more proud of you and your journey, wishing you the best of luck on your future endeavours. Although we may not have met in person due to the pandemic, but we are still grateful that you have entrusted us to serve you as PERMIAS officers and to continue the Indonesian legacy at De Anza College. We hope that this yearbook will bring back bright memories of your time at the college even years ahead from now.

President's Words

So thankful for the Indonesian community that has changed my life in the past 2 years. Can't imagine my life in De Anza without the PERMIAS indonesian community and of course my team who always have my back through every ups and downs during our time running and becoming the official PERMIAS members. Also thank you for everyone who has been supporting us with our fundrasings and events. The past 2 years has been a life changing experience for me as an individual and it has done nothing but good things for me. #guaspol4ever

Vice President's Words

Serving as a De Anza PERMIAS officer for the school year 2019-2020 was an incredible experience and I am grateful to be given the opportunity. My duty to represent the Indonesian community taught me to socialize with large groups of people, guide freshmen in their new environment, and ensure opportunities from external institutes are relayed responsibly. The moments of feeling anxious through organizing events are now cherishable, fun memories of my college experience. I hope everyone coming into the next stages of college education will have a memorable experience as much as I did!

Secretary's Words

Met a bunch of wholesome people who became my families here while sharing unforgettable memories. Definitely made my college life better!

Treasurer's Words

Just enjoy.

Event Organiser's Words

Being a part of the Indonesian community at de Anza has been such an amazing ride, and being appointed as an officer offered me various opportunities and experiences that i will forever be grateful for. Although it has been mostly online, the little time we had there was spent with many laughter and memories that was worth the while. Thank you for all the Indonesian students who have supported us since our campaign, who have supported this family, making it a better home for Indonesian students at De Anza.

Words from Alyssa

De Anza gave me a plethora of opportunities beyond the academic walls and for that I will forever be grateful. My advice to incoming students is to be proactive and search for these opportunities, but take it one at a time and prioritize having time for yourself. Remember your number one priority is always your health.

Words from Grace

Among others, I allocated the DASG's annual \$1.1 million budget twice, organized the inaugural DAMCxWICS event STEM Talks: Success Stories, mentored 4 students, of which the 2 applying for transfer committed to UC Berkeley, proposed alternative solutions to a \$4.5 million budget reduction proposal, recommended that the VP of Instruction add 10+ STEM classes for Sp'21, advocated for increased student and racial affinity group representation on shared governances to the President, and volunteered for the Office of Outreach's conference for at-risk AAPI high school students.

From one overachiever to the next — your titles are only as meaningful as the impact you have created in your communities and the joy you felt from all the work. Find your purpose, and an even better team to work with, and I could guarantee you that it'll all be worth it.

Words from Kirana

I loved my De Anza experience more than I thought I would, altho COVID did kind of messed everything up (including my grades and studying style tbh). I met one of the best and most inspiring people here and honestly you all incoming students have so much to be grateful for because De Anza is a great school! Biggest tip from me is, you need to take advantage of De Anza and actually learn here!! Activities, professors, and resources are almost as great as a university. Good luck! Don't hesitate to reach out if you need any help or have questions.

Words from Michelle

Out of my whole 2 years as a De Anza student, I only got to spend 8 months on campus. Despite this, I am truly grateful. I experienced a life of independence, met and worked with talented individuals, built strong bonds with people whom I now call my best friends, and am one step closer to achieving my goal. 2 years may seem like a long time, but trust me time flies fast. Besides focusing on a perfect GPA, figure out what you really want. Be part of organizations to develop your maximum potential, enroll in classes to sharpen your knowledge, look for the right community, build your network. Most importantly, have fun and just enjoy the journey!
